JOURNAL OF RESEARCH IN SCIENCE TEACHING Vol. 10, PP. 389–390 (1973)

AUTHOR INDEX

Abraham, E. C.: See Nelson, M. A.
Allen, L. R.: An Evaluation of Children's Performance on Certain Cognitive, Affective, and Motivational Aspects of the Systems and Subsystems Unit of the Science Curriculum Improvement Study Elementary Science Program, 125
Barcikowski, R. S.: See Skinner, Jr., R.
Beisenherz, P. C.: A Comparison of the Quality and Sequence of Television and Classroom Science Questions with a Proposed Strategy of Science Instructions, 355
Boyd, E. and George, K. D.: The Effect of Science Inquiry on the Abstract Categorization Behavior of Deaf Children, 91
Bredderman, T. A.: The Effects on the Development of the Ability to Control Variables, 189
Broudy, H. S.: Can Research Provide a Rationale for the Study of Science? 227
Brown, C. J. and Elliott, W. E.: Perceptions of Physics and Physics Teachers by College Students, 51
Brown, W. R.: Checklist for Assessment of Science Teachers and Its Use in a Science Preservice Teacher Education Project, 243
Case, R., and Fry, C.: Evaluation of an Attempt to Teach Scientific Inquiry and Criticism in a Working Class High School, 135
Daugs, D. R.: Influence of Multilevel Science Materials on Achievement of Sixth Grade Students, 147
Dickson, W. P.: Insignificant Figures, Statistical Insignificance, and Misconclusions, 183
Elliott, W. E.: see Brown, C. J.
Fry, C.: See Case, R.
Gabel, D.: See Herron, J. D.
Gardner, M.: see Summerlin, L.
Gatta, L. A.: An Analysis of the Pass–Fail Grading System as Compared to the Conventional Grading System in High School Chemistry, 3
George, K. D.: see Boyd, E.
Grobe, C. H.: A Regression Approach to Evaluating Instructional Programs in Science, 55
Hall, J. R.: Conservation Concepts in Elementary Chemistry, 143
Hammond, J. and Raven, R.: The Effects of a Structured Learning Sequence on the Achievement on Compensatory Tasks, 257
Herron, J. D. and Gabel, D.: Commentary on "The Effects of Cognitive Structure Variables on Achievement in College Chemistry," 281
Horn, J. G.: Risk-Taking in Explanation of Biological Events, 341
Hounshell, P. B.: see Main, Cecil
Huff, P., and Languis, M.: The Effects of the Use of Activities of SAPA on the Oral Communication Skills of Disadvantaged Kindergarten Children, 165
Ignatz, Jr., M.: Commentary on "An Empirical Investigation to Determine the Relative Effectiveness of Discovery, Laboratory, and Expository Methods of Teaching Science Concepts," 175
Jacobs, J. H.: Insight Learning Through Structured Observations of Classroom Interaction, 213
Kass, H.: See Renne, T.,
Koran, Jr., J. J. and Koran, M. L.: Differential Response to Structure of Advance Organizers in Science Education, 347
Koran, M. L.: See Koran, Jr., J. J.
Languis, M.: See Huff, P.
Lynn, M. C. and P. Peterson, R. W.: The Effect of Direct Experience with Objects on Middle Class, Culturally Diverse, and Visually Impaired Young Children, 83
Main C. and Hounshell, P. B.: A Comparative Study of Personality and Behavior of Science and Non-Science Teachers, 63
Nay, M. A.: See Renne, T.
Nelson, M. A.: Discussion Strategies and Learning Science Principles, 25
Nelson, M. A. and Abraham, E. C.: Inquiry Skill Measures, 291
Noddings, N.: Comments on "The Wisdom of Scientific Inquiry on Education," 279
Nous, A. and Raven, R.: The Effect of a Structured Learning Sequence on Children's Correlative Thinking About Biological Phenomena, 251
Olsen, R. C.: A Comparative Study of the Effect of Behavioral Objectives on Class Performance and Retention in Physical Science, 271
Peterson, R. W.: see Lynn, M. C.
Power, C. N.: The Unintentional Consequences of Science Teaching, 331
Raths, J.: The Emperor's Clothes Phenomenon in Science Education, 201
Raven, R.: See Hammond, J.; also see Nous, A.
Raymond, A.: The Acquisition of Nonverbal Behaviors by Preservice Science Teachers and their Application during Student Teaching, 13
Renne, T., Kass, H., and Nay, M. A.: The effect of Verbalizers on the Achievement of Non-Verbalizers in an Enquiring Classroom, 113

Riechard, D. E.: Life-Science Concept Development among Beginning Kindergarten Children from Three Different Community Settings, 39

Rosenshine, B.: The Smallest Meaningful Sample of Classroom Transactions, 221

Schock, N. H.: An Analysis of the Relationship Which Exists Between Cognitive and Affective Educational Objectives, 299

Scott, Jr., N. C.: Cognitive Style and Inquiry Strategy: A Five-Year Study, 323

Seymour, L. A., and Sutman, F. X.: Critical Thinking Ability, Open-Mindedness, and Knowledge of the Processes of Science of Chemistry and Non-Chemistry Students, 159

Shavelson, R. J.: Learning from Physics Instruction, 101

Siddiqi, M. N.: A Commentary on "Determining the Level of Inquiry in Teachers' Questions," 179

Skinner, Jr., R., and Barcikowski, R. S.: Measuring Specific Interests in Biological, Physical, and Earth Sciences in Intermediate Grade Levels, 153

Stedman, C. H.: An Analysis of the Assumptions Underlying the Taxonomy of Educational Objectives, 235

Stekel, F. D.: Comments on "The Development of the Concept of Acceleration in Elementary School Children," 387

Summerlin, L. and Gardner, M.: A Study of Tutorial-Type Computer Assisted Instruction in High School Chemistry, 75

Sutman, F. X.: See Seymour, L. A.

Swartz, C. E.: Comment on "Misconceptions of Selected Science Concepts Held by Elementary School Students," 383

Talley, L. H.: The Use of Three-Dimensional Visualization as a Moderator in the Higher Cognitive Learning of Concepts in College Level Chemistry, 263

Welch, W. W.: Review of the Research and Evaluation Program of Harvard Project Physics, 365

Wells, F. B.: Commentary on "The Distinguishing Characteristics of High Schools with High and Low Enrollments in Physics," 379

Wolfson, M. L.: A Consideration of Direct and Indirect Teaching Styles with Respect to Achievement and Retention of Learning in Science Classes, 285

Yost, M.: Similarity of Science Textbooks: A Content Analysis, 317

JOURNAL OF RESEARCH IN SCIENCE TEACHING

Editor

O. ROGER ANDERSON

Teachers College, Columbia University
New York, New York 10027

Associate Editor

J. W. GEORGE IVANY

Teachers College, Columbia University
New York, New York 10027

Book Review Editor

RICHARD HANSEN

The City College of the City University of New York; New York, New York 10031

Editorial Advisory Board

GLEN S. AIKENHEAD
University of Saskachewan
Saskatoon, Canada

ROBERT BRIDGHAM
Stanford University
Stanford, California 94305

GENE E. HALL
The University of Texas at Austin
Austin, Texas 78712

J. DUDLEY HERRON
Purdue University
Lafayette, Indiana 47907

JOSEPH F. JORDAN
John Wiley & Sons, Inc.
New York, New York 10016

LEOPOLD E. KLOPFER
University of Pittsburgh
Pittsburgh, Pennsylvania 15212

JOHN J. KORAN, JR.
University of Florida
Gainesville, Florida 32601

JAMES R. OKEY
Indiana University
Bloomington, Indiana 47401

MILTON O. PELLA
University of Wisconsin
Madison, Wisconsin 53706

RITA W. PETERSON
California State University
Hayward, California 94542

RONALD J. RAVEN
State University of New York at Buffalo
Buffalo, New York 14214

JAMES T. ROBINSON
University of Colorado
Boulder, Colorado 80302

MARY BUDD ROWE
University of Florida
Gainesville, Florida 32601

PETER B. SHORESMAN
University of Illinois
Urbana, Illinois 61801

WAYNE W. WELCH
University of Minnesota
Minneapolis, Minnesota 55455

ROBERT E. YAGER
University of Iowa
Iowa City, Iowa 52240

JOURNAL OF RESEARCH IN SCIENCE TEACHING

Volume 10, 1973

ISSUE 1, MARCH

Editorial Board Policy Statement 1

An Analysis of the Pass-Fail Grading System as Compared to the Grading System in High School Chemistry: Louis A. Gatta 3

The Acquisition of Nonverbal Behaviors by Preservice Science Teachers and their Application during Student Teaching: Anne Raymond 13

Discussion Strategies and Learning Science Principles: Miles A. Nelson 25

Research Reports

Life-Science Concept Development among Beginning Kindergarten Children from Three Different Community Settings: Donald E. Riechard 39

Perceptions of Physics and Physics Teachers by College Students: Chester J. Brown and Walter E. Elliott 51

A Regression Approach to Evaluating Instructional Programs in Science: Cary H. Grobe 55

A Comparative Study of Personality and Behavior of Science and Non-Science Teachers: Cecil Main and Paul B. Hounshell 63

A Study of Tutorial-Type Computer Assisted Instruction in High School Chemistry: Lee Summerlin and Marjorie Gardner 75

The Effect of Direct Experience with Objects on Middle Class, Culturally Diverse, and Visually Impaired Young Children: Marcia C. Lynn and Rita W. Peterson 83

The Effect of Science Inquiry on the Abstract Categorization Behavior of Deaf Children: Eunice Boyd and Kenneth D. George .. 91

ISSUE 2, JUNE

Learning from Physics Instruction: Richard J. Shavelson..... 101

The Effect of Verbalizers on the Achievement of Non-Verbalizers in an Enquiring Classroom: Thomas Renne, Heidi Kass, and Marshall A. Nay..... 113

An Evaluation of Children's Performance on Certain Cognitive, Affective, and motivational Aspects of the Systems and Subsystems Unit of the Science Curriculum Improvement Study Elementary Science Program: Leslie R. Allen..... 125

Research Reports

Evaluation of an Attempt to Teach Scientific Inquiry and Criticism in a Working Class High School: Robbie Case and Cathy Fry... 135

Conservation Concepts in Elementary Chemistry: John Ruthven Hall..... 143

Influence of Multilevel Science Materials on Achievement of Sixth Grade Students: Donald R. Daugs..... 147

Measuring Specific Interests in Biological, Physical and Earth Sciences in Intermediate Grade Levels: Ray Skinner, Jr., and Robert S. Barcikowski..... 153

Critical Thinking Ability, Open-Mindedness, and Knowledge of the Processes of Science of Chemistry and Non-Chemistry Students: Lowell A. Seymour and Frank X. Sutman..... 159

The Effects of the Use of Activities of SAPA on the Oral Communication Skills of Disadvantaged Kindergarten Children: Phyllis Huff and Marlin Languis..... 165

Comments and Criticism

Commentary on "An Empirical Investigation to Determine the Relative Effectiveness of Discovery, Laboratory, and Expository Methods of Teaching Science Concepts": Milton Ignatz, Jr..... 175

A Commentary on "Determining the Level of Inquiry in Teachers' Questions": Mohammad N. Siddiqi..... 179

Insignificant Figures, Statistical Insignificance, and Misconclusions: W. Patrick Dickson..... 183

Erratum..... 187

ISSUE 3, SEPTEMBER

The Effects of Training on the Development of the Ability to Control Variables: Theodore A. Bredderman..... 189

The Emperor's Clothes Phenomenon in Science Education: James Raths..... 201

Research Reports

Insight Learning Through Structured Observations of Classroom Interaction: Joseph H. Jacobs 213

The Smallest Mearningful Sample of Classroom Transactions: Barak Rosenshine 221

Can Research Provide a Rationale for the Study of Science?: H. S. Broudy 227

An Analysis of the Assumptions Underlying the Taxonomy of Educational Objectives: Carlton H. Stedman 235

Checklist for Assessment of Science Teachers and Its Use in a Science Preservice Teacher Education Project: William R. Brown 243

The Effect of a Structured Learning Sequence on Children's Correlative Thinking About Biological Phenomena: Albert Nous and Ronald Raven 251

The Effects of a Structured Learning Sequence on the Achievement on Compensotory Tasks: John Hammond and Ronald Raven ... 257

The Use of Three-Dimensional Visualization as a Moderator in the Higher Cognitive Learning of Concepts in College Level Chemistry: Lawrence H. Talley 263

A Comparative Study of the Effect of Behavioral Objectives on Class Performance and Retention in Physical Science: Robert Charles Olsen 271

Comments and Criticism

Comments on "The Wisdom of Scientific Inquiry on Education": Nel Noddings 279

Commentary on "The Effects of Cognitive Structure Variables on Achievement in College Chemistry": J. Dudley Herron and Dorothy Gabel 281

Erratum 283

ISSUE 4, DECEMBER

Research Reports

A Consideration of Direct and Indirect Teaching Styles with Respect to Achievement and Retention of Learning in Science Classes: Morton L. Wolfson 285

Inquiry Skill Measures: Miles A. Nelson and Eugene C. Abraham .. 291

An Analysis of the Relationship Which Exists between Cognitive and Affective Educational Objectives: Norville H. Schock 299

Similarity of Science Textbooks: A Content Analysis: Michael Yost 317

Cognitive Style and Inquiry Strategy: A Five-Year Study: Norval C. Scott, Jr. 323

The Unintentional Consequences of Science Teaching: Colin N. Power 331

Risk-Taking in Explanation of Biological Events: Jerry G. Horn ... 341

Differential Response to Structure of Advance Organizers in Science Education: John J. Koran, Jr. and Mary Lou Koran 347

A comparison of the Quality and Sequence of Television and Classroom Science. Questions with a Proposed Strategy of Science Instruction: Paul C. Beisenherz 355

Review of the Research and Evaluation Program of Harvard Project Physics: Wayne W. Welch 365

Comments and Criticism

Commentary on "The Distinguishing Characteristics of High Schools with High and Low Enrollments in Physics": Faye B. Wells 379

Comment on "Misconceptions of Selected Science Concepts Held by Elementary School Students": Clifford E. Swartz 383

Comments on "The Development of the Concept of Acceleration in Elementary School Children": Frank D. Stekel 387
